Departament de Geografia (UAB)

With the support of:

Commission on Gender and Geography, International Geographical Union
Institut Interuniversitari d'Estudis de Dones i de Gènere

This International Conference is addressed to researchers working from feminist perspectives on gender as well as other identities that play a role in the experience of place: age, social class, ethnicity, sexuality, ability and others. Taking these power structures alone or in mutual constitution, we want to gather as many experiences as possible to account for the current dynamics of power relations and the role of places where they occur. Papers on diverse issues of everyday experiences in different contexts and spatial scales, in urban and rural areas, will be welcomed. All of them should illustrate the relationship between spaces and power structures in a global society that face relevant challenges from an economic, social, political and environmental sense. Theoretical, methodological or case studies papers are of interest.

The Conference seeks to build a stimulating forum to exchange ideas and forge new and fruitful international collaborations among researchers interested in gender geographies with an intersectional perspective.

The official language of the Conference will be English. **Abstracts** (in English, maximum 200 words) **and keywords** (in English, maximum 5) will be sent to 2016GenderBarcelona@gmail.com **up to 11th March 2016.**

Registration fee: **180 euro** (90 euro students) (includes lunch and coffee break of 14 and 15 July). The acceptance of papers will be announced from **1 to 15 April 2016** and the **Registration** period will be open from **18th April to 31st May 2016.**
